BIG ADVANCES IN ALL GRAIN MARKETS.

A RUNAWAY CONDITION PRE-VAILED.

Corn Led in Strength and Closed Over Five Points Up, Wheat and Oats Three Points Up.

There was no end of a bull session on the local exchange yesterday in grains. Runway conditions prevailed in all the markets, and sensational advances were made by all grains, especially by corn, which was really the bull leader and practically started

and most exciting that has been witnessed since the bull movement was inaugurated, the pit being thronged with a howling mob of wild-eyed traders anxious to fill buying orders, and to get on the iong side for their own account. The weather conditions continue builts, but and do not be the conditions continue builts, but and do not be the conditions of inue bullish, bot and dry in the Northwest, but it was the sensational advance in corn that was chiefly responsible for the condi-tions prevailing in wheat. There was noththat was chiefly responsible for the conditions prevailing in wheat. There was nothing responsive to our late advances acroad and especially at Laverpool, which market was reported 4d lower, though the only exporting done last week of any consequence was from America, and the amount affoat showed a decrease of 1,284,000 bu, as compared with 450,000 bu, decrease a year ago. The arrivals at Chicago, Kausas City and St. Louis were over 300,000 bu, respectively, but notwithstanding this fact they had no bearish influence, traders being too anxions to buy and there was only one side to the speculative situation. So heavy was the buying that the first dash out of the box opened the market here from 1c to 1½c higher, at 67½c to 68c for Sept, which option shortly after was selling at 68½c; Dec. selling at 71½c to 71c. The relapse from these figures was not great, in fact, it was only to 68c for Sept., at which all that was offered for sale was taken, and the demand secame so pressing that prices once more comenced to advance, and in a short time of the control of

The buying continued almost uninterruptedly right up to the close, though rains were reported as failing in the Northwest, which might lower the temperature. On the last buige Sept. sold up as high as 70% and closed at 70% sellers. Doc. had 70% bid, but closed with a sale at 70% while for July 60c was bid. No export business was reported, but the day's clearances were large, at 1.155,000 bu., and the visible supply decreased 28,000 bu. where a year ago the decrease was 60,000 bu.

The conditions prevailing all over the country, and especially in the surplus states, were such as to bring about a sensationally buillish corn market here and everywhere else in this country. The dominating influence in this grain was, of course, the weather and its influence upon the crop. There was nothing on the weather map on change, which the traders so eagerly scanned when they first arrived upon the floor, to indicate rain anywhere but at Galveston, Tex. It was a red map; that means a dry one. The intense heat continued everywhere, and no prospects for relief appeared to be in sight. The advices from the big corn-raising States was uniformly bad, and, in fact, worse than they have been at any time since things became dangerous. The one decire that was spiarent when the market opened was too buy, professional speculators and countrymen vying with one another to get their orders in as early as possible; then there were numerous orders from the country, and the rush to buy when the market opened up for business was something flerce. The only sellers were longs, and they sold only to a limited extent, and a runsway condition prevailed right at the outset. Sept. opened right at the outset. Sept. opened right at the outset. Sept. opened right at the outset sept. The wishle fell off \$25.00 but, against \$2,000 but, decrease a 15% countral

Oats, as was to have been expected, was the same runaway condition as wheat a corn, and a very strong, buillish and livesy market was experienced all through the session. The demand was very urgent from the start, and there was some lively climbing for the different options. Weather conditions were very bad and crop advices were worse than ever. At the opening Sept. was 'ice up at 87%c, and shortly after 28c was bid, while for May 41c was bid. The demand became more and more urgent, and especially for July, by shorts, and that month, after selling at 40½c, had 41c bid. In the meantime Sept. sold up to 28%c and May to 42c, which was 2½c advance. The visibly supply decreased 1.080.000 bu., against 716.000 bu. decrease last year. Sept. late sold at 33%c, and that was bid at close, when July was 41½c and May 42%c.

Traders' Gossip.

wheat will necessarily advance. Mills are free luyers at 6% for No. 2 from wagons or local cars. Most of the crop in this section has been thrushed, but the yield has been rather disap-pointing. Considerable quantities of West Tra-neasse wheat have been seld to New Orleans buyers for export. The quality of wheat is griencid.

buyers for export. The quality of wheat is released.

To Barilett, Frazier & Co.: Following from Urdyke Grain Comanny, Omann—"Com cannot trake one-third of a crop south of Platte River, and not over half north of Platte River. Our orallon is that Nebraska will not raise any corn to ship this year. Farmers in Clay County todding on for cash corn. Clay County todding on for cash corn. Clay County todding one for cash corn. Clay County todding and for grain than any other county in Nebraska hast year. Weather clear, not and dry.

To Cobe & Gardner: Jefferson City, Mo—Crop prospects grow worse daily. Corn and vegtation, which revived after the rain of last week, are withering and blasting from the bot sam and vinds. No prospects for relief are in sight.

To Graves: A Berlin cable says of the Prussian crop report of July 15 that it shows no change in winter wheat and rye has declined 1.0, outs 6.10, potates 2.10 and meadows 4.20.

A letter from Lexington, 1s., reports corn already gamaged 30 per cent, and adds that it is rapidly going to destruction.

PRODUCE MARKETS.

Local Fruit, Vegetable, Poultry,

Egg and Butter Quotations. The produce markers were dull and featureless yesterday, and there were few changes in
prices, Receipts, as a rule, were light, but were
ample for the demand, as the local trade was
light, and shippers bought very little, as the
weather was too hot for active operations. Values
were fairly well sustained.

Fortices were firm and higher, as reports from
loading stations indicated that offerings were
light, and receipts by tramers? wagons were
small. Choice stock was in good demand for
both shipping and local account, as in many of
the sections in the North, where they have had
supplies of home-grown potators, yesterday or
dered from this market.

Tomatoes were dull and weak. Receipts by
consignment were light, but offerings of homegrown were more than equal to the demand.
Most of the stock was only of fair quality.

Cheminhers were dull and slow at unchanged
prices. The market is still overstocked, and only
choice stock is wanted at any price. Offerings of
home-grown were beral, and consignments are
not wanted.

String beans were dull and slow. Choice stock
would have brought facey prices, but offerings
were mostly stale or otherwise inferior.

Cabbage was duit and slow at unchanged prices,
with offerings shout equal to the demand, and
consignments were miple for the demand, and
consignments were moderate, and stocks in dealers'
hands are light.

Lettuce was dull and slow, as most of the
offerings were moderate, and stocks in dealers'
hands are light.

Lettuce was dull and slow, as most of the
offerings were in poor condition and of inferior
quality.

Other vegetables were quiet and steady at unofferings were moderate, and stocks in dealers hands are light.

Lettuce was dull and slow, as most of the offerings were in poor condition and of inferior quality.

Other vegetables were quiet and steady at unchanged prices.

Apples were slow and weak, but there was little change in prices. Offerings were moderate, but were equal to the demand.

Peaches were quiet and steady, Receipts were moderate and the demand was light. Fancy fruit was in good demand, but common and inferior stock was dull and weak. Offerings of home grown stock were slow of sale at any price.

Pears were scarce and choice fruit was in fair demand.

Plums were quiet and steady at unchanged prices. Receipts were moderate, but the demand was slow.

Cherries were scarce and firm, with choice stock in good demand.

Some Alabama grapes were received, which sold readily at from 31.50 to 31.75 per 8-basket crate, containing 39 ibs. They were of the Niagara variety and were in fair condition.

Blackberries were scarce, but the demand was light, and offerings were of poor quality.

Chantaloupes were weak and lower, as offerings were heavy and mostly of stock which had been carried over Sunday and was overtipe. Fancy melons were in good demand and firm.

Watermeions were alian more pientful and lower, as receipts of Missouri melous were heavier, and there was only a fair demand.

Changes were firm and higher, as receipts were light, and good stock was scarce and in good demand.

Lemons were firm and higher, as receipts were light. And good stock was scarce and in good demand.

Chieferings light.

Pincapples were quiet and steady at unchanged prices.

Choice fruit was in fair demand.

Calforms fruits were weak and lower, as receipts were liberal.

Other fruits were weak and indeed and choice heus were quiet and steady at unchanged prices.

Tressed poultry was dull and steady. Receipts were liberal.

Other fruits were was again dull and unchanged yesterday. Receipts and shipments were both unusually light, and the local demand. Receipts were flay, sup

in a jobbling way ranged: Extra shorts at 11c; cribs at 5½c; clear sides at 5½c; bellies at 5½c to 10½c, as in average; plates at 7½c; fat backs at 5½c; standard backs at 5½c. Dealers charge higher on orders.

MOST ACTIVE DAY OF GREAT CORN ADVANCE.

SENSATIONAL BULLISH NEWS SENT ALL MONTHS UPWARD.

Gain Was 3.4c to 43-8c-Immense Trade in Wheat-Oats Excited and Higher Also.

REPUBLIC SPECIAL. Chicago, Ill., July 22.—Wheat was active and prices were some higher to-day. Corn was active and excited, and closed to 4%c higher.

Oats were excited and higher on weather vis 10% c ... Account of the control of the control

wheat.

An immense trade was done in wheat and the market was wild and excited, prices covering a range of from 3½c to 4½c. Much higher prices ruled all around, and at the close showed gains of 3½d.4c. The opening was somewhat irregular and excited, and short covering and investment buying caused a shary advance, but the bulge in corn and oats and damage claims in the Northwest were the main strengthening features. Shorts were active buyers on the upturn and long lines were augmented. The excessive heat in the Northwest was one of the bull factors, and fair, warmer weather was indicated for the next thirty-six hours. Minnesota reports harvesting returns as disappointing. Realizing was a feature at the advance. Statistics were a secondary consideration to-day, the weather being the prime factor. The world's shipments were moderate. 7.64.000 bu., compared with 7,-64.000 bu. last week and 7.973.000 bu. one year ago. The quantity on ocean passage showed a large reduction, 1.984,000 bu, to 21.744,000 bu., against 22.126,600 bu. for the corresponding time a year ago. Liverpool quoted 250ts steady to 1.5d higher, and futures 162114d higher. London was also higher, gaining 3½d14d, and Paris was up equal to 1c, while Antwerp was 5½c lower.

Receipts in the Northwest were larger tham a year ago, but the primary movement was 35,000 bu, greater than in 1909. Clearins were immense—1.15,000 bu., and on the coast 9 boatloads were accepted.

The visible supply decrease last year. The total is now 27,681,000 bu., analmst 45,630,000 bu. against 45,000 bu. doe year ago. Outside markets all closed lower. Receipts at Duluth and Minneapolis were 43 cars, against 190 cars last year.

Estimated receipts for to-morrow are 540 cars, Withdrawals here were 375,400 bu. The receipts were 247 cars, against 160 cars last year.

Estimated receipts for to-morrow are 540 cars, Withdrawals here were 375,400 bu. The receipts at Western primary points were 1.545,131 bu., against 1.149,331 bu. last year. Shipments from there were 751,245 bu., against 369,739 bu. last year. Exports of flour and wheat were equal to 1.156,034 bu.

against 369,139 bu. last year. Exports of flour and wheat were equal to 1.156,054 bu.

Corn.

Much higher prices were scored to-day. Sept. went up to 505c. Dec. to 605c and May to 525c. It was the most active and excited day so far on the big advance. The weather, of course, was again the doninant factor—no rain and temperatures high—with country advices most buillish. The signal service again indicates no relief from rains, and operators are comparing the situation with the great drought of 1894.

There was a rush to buy at the start and the market steadily gained in price, notwithstanding the liquidation. Reinstating of long lines was a feature. Cables were up sharply; spot at Liverpool 1d to 1½d. Shorts came in freely on the early buige. World's shipments were 539,000 bu., previous week, 6,329,000 bu. and 5,765,000 bu., previous week, 6,329,000 bu. and 5,765,000 bu., argainst 622,000 bu., and 11 boatloads were taken on the coast. Western receipts were 557,000 bu., against 622,000 bu., and 1,355,000 bu. a year ago. The press advices from the West were the most sensational that have been yet received, and the visible supply decreased 1st year, making the total 13,242,000 bu., against 13,525,000 bu., against only \$3,000 bu., against 1,355,000 bu., against 13,525,000 bu., against 13,525,000 bu., against only \$3,000 bu., against 13,525,000 bu., against only \$3,000 bu., against 13,525,000 bu., against 14,524,000 bu., against 14,524,000 bu. one year ago.

The close showed gains all around.

4.254,000 bu. one year ago.

The close showed gains all around.

Oats.

Oats were excited and very active, with but one influence—bad crop reports and the advance in wheat and corn. There was a wild rush to buy from the start, and prices were 1½c to 2½c higher at the opening, making nearly the entire range. A break of 1¼c followed, owing to profit-taking on a large scale, but this was followed again by a bulge of 1½c.

At the outside prices were up 3c to 3½c from Saturday's close, and the highest prices reached since 1894. Cash sales were 70,000 bu. to go east. The visible supply decreased 1,080,000 bu., and local stocks decreased 206,000 bu., Withdrawals were 70,000 bu. At the close prices were ½c to ½c from the top.

Barley.

The new crop of barley was again dull, maltsters standing out of the market, as that on sale had not passed through the swent. On the other hand, there was no disposition on the part of sellers to force sales, owing to strength shown in the other grain markets. Receipts were 6 cars. Sercenings 380,35c; low-grade, not suitable for maiting, 40,45c; maiting, common to fair, 450,48c; good, 50c; Sept. 60c.

Rye.

There was a good trade in rye and prices advanced 3c. There was a good speculative demand, and offerings were fair, and there was also a good inquiry for cash on speculative account. The advance was partly in 1 sympathy with the other grains. The receipts were 11 cars. There were no withdrawals from store here, and no export clearances from the seaboard. The visible supply decreased 104,000 bu. No. 2, to go to store, 57c; f. o. b., 57c; No. 3, f. o. b., 55656c.

Flaxseed.

Flaxseed.

The future market was at a standstill, and, while bids were higher, they were not up to the views of sellers. Sept. \$1.73 asked: Oct., \$1.99\(\frac{5}{2}\) bid, \$1.62\(\frac{1}{2}\) asked. Cash flax in car lots on track \$1.89\(\frac{1}{2}\) bag lots \$1.82\(\frac{1}{2}\). Receipts were 9 cars at Minneapolis, and none at Duluth, while 10 cars were received here, 9 of which inspected in; no shipments.

Timothy and Clover Seeds.

There was an advance of 15c to 25c per 100 lbs. In futures under small offerings and a moderate demand. The demand was mainly from shorts. Cash lots were higher at \$1.75 to \$5.25 for contract old; country lots, poor to choice, \$3.7565.49; fair to good, \$1.8565.19; common rough, \$4.5564.70; Sept., \$5.25; Oct., \$5.25.

Clover was nominally better in sympathy with the advance in other seeds, but no demand to speak of, and market about bare and nominal; poor to choice, \$669.25; fair to good, \$7.5068.50; contract, \$9.75; Oct., prime new, \$9.75.

demand to speak of, and market about bare and nominal; poor to choice, \$69,25; fair to good, \$7 5098.50; contract, \$9.75; Oct., prime new, \$9.75.

There was considerable interest manifested in the market for hog products today, and the trade was quite active. The deferred deliveries met with most favor. The market exhibited considerable strength on sympathy with the sharp advance in grain markets, owing to the extreme hot weather and the continued bad crop reports. Offerings were not very large, and the general demand was quite active. Shorts accepted fair quantities.

At extreme figures, packers closed out a portion of their holding, especially of longer deliveries. Receipts of hogs were fair and prices ruled higher for the better grades. Arrivals at the leading Western markets were estimated at 70,500, compared with 44, 200 one year ago. Foreign markets were steady and firm, and prices were well maintained. Domestic markets were rather quiet.

Speculation opened with a little pressure to sell, and prices ruled a trifle lower for the near deliveries. The demand, however, was quite active and prices advanced rapidly on all descriptions. At the extreme figures there was a little inclination to realize, and prices settled back slightly, but the market closed comparatively steady, especially for the longer deliveries. Pork was active and feeling stronger. Trading mainly in Jan. contracts. Market opened rather improvement of 25c to 30c was ganed, with moderate trading at the advancing scale. Toward the close the feeling not quite so strong, and prices receded

5c to 10c, and the market closed steady.

Lard was active, business reported good, and feeling decidedly stronger.

Ribs offerings not very large and demand rather active, early feeling not very strong, but at the close market was steady.

REPUBLIC SPECIAL.

New York, July 2.—Eggs—Receipts to-day 7.84 cases. Receipts running very much lighter and prices, under good demand, showed the effect in a general advance. The settling basis on the best accepted quality from the current receipts is now at 1%, with case count rates in conformity. Some very closely graded, entirely fresh Michigan goods selling above limits. Spring refrigerators in demand, with sales at 16%, with May and June goods in request at value, but offerings of storage stock increasing, without leading to any speculative interest. Ordinary grades of cags were in better demand. Quotations, loss off: Central Western, prime, 17c; Western and Southwestern, fair to good, 15215C. Quotations at mark: Central Western, average best, 12c; Western and Southwestern, fair to good, 7512c; and 150 cm. Spring for the good, 1570; culls, per case, 50 gill. 25.

New York, July 22.—Wool quiet.

FOR A MILITARY EDUCATION.

Cadets to Missouri State School Named by Legislators.

REPUBLIC SPECIAL. Columbia, Mo., July 22.-Each Representative and Senator of the Missouri Legislature is entitled to appoint two young men from his county as cadets in the Missouri State Military School. This appointment means to the young man appointed a most excellent military training, a good suit of clothes and exemption from the payment of library fee of \$5. However, if the appointment is not made before August, the legislator is allowed to appoint any one from any part of the State.

The department is in excellent condition. Last year the enrollment reached 252 adets, who were formed into battalion of four companies. The exercises of the cadets or public occasions give an added attraction to college life at the State's preatest ecotational institution. ture is entitled to appoint two young men
